Prepare Now

Cold weather is here now, and it should be a reminder to you to hunt up those broken windows. If your windows are solid your house will be much warmer, and even what appears to be a slight crack will let in a lot of cold. Don't put it off any longer—let us fix them now. We have an extra large stock, and can cut any size or shape you want. The glass we carry is of extra quality, and comes in any thickness you desire. We cut glass for automobile headlights, too.

Advancement For Wide-Awake Men

The chief difference between you and the man you work for is training. He has to eat, sleep, walk, and work, like any one else. He is boss today because he is able to plan and direct work such as you are doing. When pay day comes 'round he draws a good, fat check, while you must try to get along on the contents of your slim pay envelope. How long will it be before you WAKE UP? It is simply a question of getting the necessary training. Employers are quick to see that a trained man is worth far more than an untrained man. They pay big money to the man with a technical training. They have to if they wish to hold him. You can fit yourself to hold a good position with a far better salary. It is easier than you think.

Last year more than FIVE THOUSAND persons gained better positions simply through I. C. S. training. At this moment thousands more are preparing to advance themselves in the coming year. Every day hundreds of men take the first necessary step—the mailing of the card attached. Why not be one of the army of men moving forward toward success?

WAKE UP. Open your eyes to your opportunity. Just put an X on the attached card next to the position you would most like to fill. This puts you under no obligation.

If you put it off until tomorrow, that will be just one more day LOST. Take the first step toward success TODAY.

If you have good red blood in your veins, and WANT to be somebody, the International Correspondence Schools will help you. Tell the I.C.S. what kind of a position you want and they will show you how you can fit yourself to get it.
